The Australian Institute of Parapsychological Research, Inc.

with the support of the Cardigan Fund

presents

The AIPR Mini-Conference 2019

Venue: North Sydney Community Centre
(The Morton Room, Ground Floor)
220 Miller Street, North Sydney, NSW (rear of Stanton Library; near North Sydney Station)
(car-parking, 200 spaces)

Date: Saturday, November 30th, 2019

Time: 1:00pm to 5:30pm

Donation $20 (Concession $10)

UFOs, Hauntings, and Remote Viewing

Chaired by Dr. Tony Jinks¹
School of Psychology
Western Sydney University
(Penrith Campus) Kingswood, NSW

* * *

Mini-Conference Programme

Lecture 1 (1:00pm to 2:00pm)
"UFOs and the Paranormal in Focus Today"

Bill Chalker²
UFO Researcher and Author, Sydney, NSW

The linkage of UFOs with paranormal phenomena will be examined in this lecture. UFOs have had a lot of attention lately from the mainstream press. *The New York Times* and *Politico* broke a story about a secret Pentagon UFO program which received massive and sustained attention. Consciousness is being described as a big factor. Remote Viewing pioneer Dr. Hal Puthoff is deeply involved. What lies behind Robert Bigelow’s Skinwalker Ranch? Is this a tipping point in UFO research and the paranormal? Bill Chalker will take you behind the headlines and reveal a story with a focus on UFOs and psychic phenomena.

¹ Dr. Tony Jinks lectures at Western Sydney University, where he teaches neuroscience and paranormal studies to psychology students. He is a specialist consultant for the *Australian Journal of Parapsychology* and publishes in a wide variety of scientific fields.

² Bill Chalker is an Australian author and UFO researcher. His current major focuses include the alien DNA paradigm, the Asian UFO experience, science and the UFO controversy and so-called UFO solid light cases.
Mini-Conference Programme

Lecture 2 (2:00pm to 3:00pm)

"Haunted Port Arthur: An Analysis of Over 1000 Reports"

Dr. Tony Mowbray
Psychologist, Researcher, Melbourne, VIC.

Presently, haunt phenomena at Port Arthur in Tasmania are still experienced in multiple locations across the site and documented by both patrons and staff, making Port Arthur a suitable place to investigate these experiences. This talk will present some of the findings from a qualitative analysis of over 1000 documented reports of haunt-type experiences at the site of Port Arthur.

* * *

Tea Break - 1/2 hour (3:00pm to 3:30pm)

* * *

SPECIAL ANNOUNCEMENT: Dr. Tony Jinks and Mr. Attila Kaldy Preview:
TRACK: Search for Australia’s Bigfoot

* * *

Lecture 3 (3:45pm to 4:30pm)

"Haunt and Poltergeist Clearing in Australian Residences"

Lance Storm & Robb Tilley
Paranormal Researchers & Investigators

BRIEF REPORT: Lance Storm and Robb Tilley present the findings of their clearing study.

* * *

Lecture 4 (4:30pm to 5:30pm)

"The Science and Applications of Remote Viewing"

Sandra Hilleard
Remote Viewer, Remote Viewing Trainer and Researcher, Perth, WA

PART 1: Sandra’s journey into the field of Remote Viewing (controlled extrasensory perception; ESP) began after she personally experienced spontaneous ESP a number of times, to the point where she could no longer deny the reality of this human ability. She is currently the only active researcher in RV in Australia. She has successfully assisted law enforcement agencies around the world. In her talk, Sandra will present the science and applications of RV, and she will share both her current research project as well as some of the amazing cases she has worked on.

[Short Break]

PART 2: In this second session, Sandra will demonstrate RV techniques with the active participation of the mini-conference audience.

---

3 Dr. Tony Mowbray is a researcher, and lecturer, and holds a license as a non-practicing counselling psychologist. Dr. Mowbray currently helps coordinate an online psychology program at Monash University (Melbourne) and has interests in parapsychology, psychology education, and technology for the use of education.

4 Dr. Lance Storm earned a B.A. (Honours) in psychology and a Ph.D. in psychology and parapsychology at the University of Adelaide, South Australia, where he conducts research in psychology and parapsychology.

5 Mr. Robb Tilley has considerable experience investigating poltergeists and hauntings. He resides in Sydney, and is Public Officer for AIPR.

6 Sandra Hilleard originally worked as a graphic designer, web designer and a visual artist/painter. In 2008, she moved to Perth from the Netherlands, and in 2009 she went to Carlsbad, California, for training with Dr. David Morehouse (a former Military Remote Viewer). Sandra created a remote viewing training package, a website and promotional material, and set up the Remote Viewing Unit in Perth. She became a qualified Cert. IV Trainer and Assessor, and runs RV tuition & training courses in Perth and Sydney. Sandra is author of the book *Anomalies*.

Education in Parapsychology
Student and Instructor Perspectives

Harvey J. Irwin

Monograph No. 2 in the AIPR Monograph Series in Parapsychology
Dr. Lance Storm and Dr. Adam J. Rock, Editors

“This monograph addresses the provision of educational experiences in the field of parapsychology and is designed to meet the needs of both students and instructors. Part 1 of the monograph discusses issues of primary importance to the person who would like to study parapsychology. Topics examined here include motives and misconceptions about parapsychology; and unrealistic expectations and potential benefits of studying parapsychology. Part 2 looks at teaching a course in parapsychology, including the design of a balanced curriculum that maintains critical standards while still accommodating the wide range of students’ interests. The future of the discipline of parapsychology depends on the quality of its educational programs. Accordingly, this monograph, by drawing on many of my own successes and failures in teaching parapsychology, will help to enrich the educational experiences of both parapsychology instructors and parapsychology students.” Harvey J. Irwin, PhD, Research Fellow.

“Psychic phenomena such as extrasensory perception (ESP) and psychokinesis ('mind over matter') have been reportedly experienced by people from all walks of life. But are these phenomena real? And how could they possibly fit into our knowledge of the human brain? In this monograph, Bryan Williams examines some of the latest findings to emerge from efforts that parapsychologists have made to explore how psychic phenomena may be linked to brain functioning. Although they do not yet lead to a fully working theory, these initial findings do point to possible brain correlates that could be a focus for further study using advanced brain wave monitoring and functional neuroimaging techniques.”

Bryan J. Williams, Research Affiliate, Psychical Research Foundation, Carrollton, Texas, USA.
